EXPERIENCE:- 5+ Years

Objective:-

As a seasoned mobile application and web developer, I bring five years of extensive experience to the table. My expertise lies in crafting applications from the ground up, adeptly integrating provided designs and APIs seamlessly into the front end. I excel in writing optimized, skillful code and swiftly resolving any encountered bugs. Working collaboratively within a team environment comes naturally to me. Additionally, I am well-versed in utilizing GIT for repository management and proficient in deploying applications to both the Play Store and App Store.
